Cost Share Calculations

F&A on Cost Share

Calculate full F&A on the cost share by applying the full, applicable UNR F&A rate to the Modified Total Direct Cost amount on the previous page.

Unrecovered F&A

Unrecovered F&A occurs when UNR is required by a sponsor to charge less than UNR's full, applicable F&A rate. For example, UNR's full applicable F&A rate is 46%, but the sponsor requires UNR to use a 10% F&A rate. With sponsor approval, unrecovered F&A may be used to meet cost share obligations. Calculate unrecovered F&A as follows: Full, applicable UNR F&A rate minus sponsor required F&A rate multiplied by the sponsor modified total direct cost portion.

Cost Share Notes

Below, please provide any additional information regarding the cost share that may be helpful to Sponsored Projects.
